CM

Fullerton Aug 31 1913

Dear Mrs Grandy -

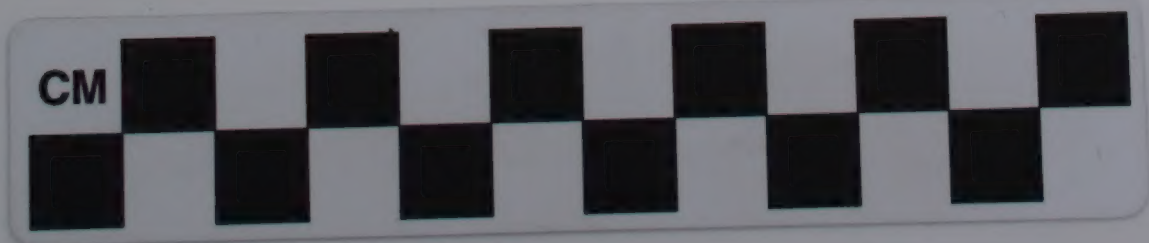

It's Sunday night -
10 P.M. and I am sleepy enough to
lay on the floor and sleep until sun-
rise in the morning - if only I could.
Was glad to receive your letter and
would have answered ere this, only
this hasent been a moments spare
time. When I went to Huntington
Beach - found my friend had been
quite sick - so I took charge of her
for several days until I had a
call back here - not the one I was
expecting tho. but where I had
just left. The baby could not be
managed so I returned Friday
evening. Sunday two good people
planned ice cream for one - had
invited some friends for the afternoon
so thought they would take a drive
and get some extra cream in
the forenoon - They wanted to take
baby but I wouldn't let her. and its
lucky they didnt for they had

CM

gave only a black upon the horse
 upset the buggy & sent her out
 she had her hip bruised and was
 much shaken up - very nervous
 while he had his leg broken - a
 bad break and he has been suffer-
 ing much with it - so I am here as
 chief nurse & is while attending
 him in writing, between acts - so
 you must overlook any and all
 omissions & mistakes - Poor little
 baby cries so with colic - The mother
 gets so upset and I do feel sorry
 for them its one week today - We
 are hoping this other deal party
 will hold off a while longer -
 yet the call may come any time
 so I'll get my things together as
 soon as possible and be ready.
 now about renting land this
 Mr Oswald is a real Estate
 man & knows the local conditions
 well - says this little chance to

rent - the Japs pay $\$2.50$ weekly fine
dollars per year rent for land with
no improvements and are glad to
get any thing at any price so
dont think there is much chance
to rent a place. Land is becoming
more valuable in this section
and I only wish I had a home
here - I like it more and more
& think I'll soon be up this
way. Well I cut my cow and it

May. Well I lost my cow and it
certainly makes one feel blue -
I hope alls well with you. &
the children dont cough much -
I heard Mrs Zella was at the
Anastasia Sanatorium. had
an operation. She is doing nicely.
her mother lives there. Well its
now 4-minutes of midnight and I
can scarcely hold my eyes open
will try & do better when there is more
time and conditions are better.

Much love to all - and wishes
to you

Your old friend
Jennie Young.
